Victoria Joseph Oghenetega

Full-Stack Developer

jv748690@gmail.com | github.com/jv748690-a11y | portfolio-blue-six-3soi5r6sgm.vercel.app | Lagos, Nigeria

PROFILE

Full-stack developer with a BSc in Information Technology (Department of Computing, Anchor University Lagos). Built and shipped five web apps, including an AI assistant, a data dashboard, and a live student marketplace. Also runs Vee Gem, an accessories business, and built its storefront.

EDUCATION

BSc, Information Technology

Department of Computing, Anchor University Lagos (AUL) | Matric No. AUL/IFT/22/013

Capstone: TrackMySIWES, a system to track student industrial work experience placements.

PROJECTS

Tega: AI Personal Assistant

tega-assistant.vercel.app

AI assistant built on the Gemini API. Supabase auth, streaming responses, markdown rendering, voice input, dark mode.

NaijaPulse: Nigerian Economy Dashboard

naija-pulse.vercel.app

Dashboard tracking Naira exchange rates, fuel prices, and inflation data, with charts built in Recharts.

TrackMySIWES: SIWES Monitoring System

Capstone Project

System for tracking students' industrial work experience placements. Built and defended as final-year capstone.

CampusMart: Peer-to-Peer Student Marketplace

campusmart-orpin.vercel.app

Live marketplace for university students with in-app chat, built to support multiple schools, not just AUL.

Vee Gem: E-Commerce Storefront

vee-gem.vercel.app

Storefront for Vee Gem, her own accessories business.

EXPERIENCE

IT Support & Networking Intern (SIWES)

Lucky Fibres (Lush Hair) | 2025 | 5-6 months

Fixed staff computer and network issues, set up hardware. Helped manage servers and the company network. Mix of support tickets and small dev/automation tasks.

Founder

Vee Gem, Accessories Business

Runs the business day to day and built and maintains its storefront.

SKILLS

Languages & Frameworks: JavaScript, React, Next.js

Backend & Data: Supabase, REST APIs, Gemini API integration

Tools & Platforms: Git/GitHub, Vercel, Recharts

Other: Product ownership, e-commerce operations, technical documentation
